Teacher Attention in Small and Large Classes

S. Kim and J. Park

Abstract

This fictional observational study recorded how often teachers addressed individual students in small and large classes in Grades 3 to 6.

Introduction

This passage is placeholder text in a fictional sample article about teacher attention. It exists only so that the sample project has realistic page numbers, and it does not report any finding. Readers practicing with Article Scaffold should not make cards from this passage.

Results

In small classes, each student was addressed individually by the teacher about twice as often as in large classes.
